

Bhogeshwar Jadhav

Pune, Maharashtra — +91 7499106570 — bhogeshwarj@gmail.com — linkedin.com/in/bhogeshwarj — github.com/Bhogeshwarj

Professional Summary

Full Stack Developer with practical experience in designing, developing, and deploying scalable web and mobile applications using Next.js, Node.js, React Native, and AWS. Proven success in implementing AI-powered solutions, building high-performance REST APIs, and optimizing cloud deployments. Strong background in Agile workflows and collaboration, driving over 30% improvement in development efficiency and user engagement.

Key Skills

JavaScript (ES6+), TypeScript, C++, Python, Java, Next.js, React Native, Node.js, Express.js, TanStack Query, PostgreSQL, MongoDB, MySQL, Redis, AWS (EC2, S3, Amplify), Cloudflare, Docker, Jenkins, Git, CI/CD, REST APIs, Agile, Scrum

Work Experience

Full Stack Developer — Pairenthesis, California, USA

May 2025 – Present

- Designed and implemented a scalable in-app and push notification system using Firebase Cloud Messaging (FCM), increasing user engagement by 25%.
- Developed and optimized RESTful APIs using Node.js and Express, integrated with PostgreSQL to improve data retrieval speed by 30%.
- Integrated OpenAI API for AI-powered workflows, automating client tasks and reducing manual operations by 40%.
- Built responsive React Native components, improving app load time by 18% and enhancing mobile UX.

App Developer Intern — LDvia Innovations, Pune

Mar 2025 – May 2025

- Engineered authentication flows including Sign Up, Sign In, Forgot Password, and OTP verification using TanStack Query, achieving 99% success in user logins.
- Deployed scalable backend APIs on AWS EC2 and hosted React Native frontend on AWS Amplify, reducing downtime by 35%.
- Designed reusable UI components improving development efficiency by 25% across projects.

Full Stack Developer Intern — DigiLifeStyle, Pune

Dec 2024 – Feb 2025

- Developed a responsive and SEO-optimized website using Next.js with Server-Side Rendering (SSR), improving Google Lighthouse SEO score by 20%.
- Built and maintained REST APIs using Node.js and Express integrated with PostgreSQL and MongoDB, supporting over 10,000 user records efficiently.
- Enhanced database performance by 35% through query optimization and proper indexing strategies.

Projects

AI Mock Interview App

Tech Stack: Next.js, Drizzle ORM, PostgreSQL, Docker, AWS

- Developed a full-stack AI-driven interview platform that generates role-specific questions using the Gemini API, improving personalization accuracy by 40%.
- Containerized the app with Docker and deployed on AWS for 99.9% uptime and seamless scalability.
- Implemented structured database models using Drizzle ORM, optimizing query performance by 25%.

Smart Gamezone Booking System

Tech Stack: Next.js, React.js, Node.js, Express.js, PostgreSQL, AWS, Stripe/Razorpay

- Built a smart booking platform for sports facilities using Next.js and Node.js, reducing booking conflicts by 45%.
- Integrated AI-powered suggestions for opponent matchmaking and dynamic pricing, increasing user satisfaction by 30%.
- Enabled online payments via Stripe/Razorpay with secure encryption, achieving 100% transaction reliability.
- Deployed full system on AWS with automated email, SMS, and push notifications for booking updates.

Education

D.Y. Patil College of Engineering, Pune Bachelor of Engineering in Computer Engineering

2022 – 2026

SGPA: 8.72 / 10
